### What Is Victorian Architecture?

"I love the bay windows, iron railings, decorative brick, and complex roof lines that draw the eye upward," says Jeri Brown, founder and principal interior designer for Jeri Brown Design, who used to live in a 1910 apartment on the Upper East Side in New York. This brand has a cheeky name and a great collection of jewelry, too. Bubs and Sass has a whole section of sweat proof jewelry on their site, with options in both gold and silver colors that hold up.

"Our stainless steel collection is growing every day. We recently made the switch to stainless steel chains for our entire collection, but these pieces are 100% stainless steel," reads the page. "They are slightly darker than gold plated brass but hold up much better! Go ahead and dive in...your sweat-proof bubs & sass jewelry can handle it!"
